GOVIND SADHANANDE

Java Backend / Full Stack Developer

Bengaluru, India • +91 9113064105 • ntg043172@gmail.com • linkedin.com/in/govind-sadhanande • github.com/Govindkalal84

PROFESSIONAL SUMMARY

Results-driven Java Backend / Full Stack Developer with hands-on experience building scalable RESTful web applications and secure microservices using **Java 17, Spring Boot, Hibernate, MySQL**, and **React.js**. Proficient in resolving complex database performance bottlenecks (N+1 queries, indexing), designing role-based JWT security architectures, and automated API validation. Dedicated to writing modular, test-driven code with clean architecture and robust exception handling.

TECHNICAL SKILLS

Programming Languages:	Java (Java 8/17 – OOP, Collections, Multi-threading, Streams), JavaScript (ES6+), SQL, HTML5, CSS3
Frameworks & Backend:	Spring Boot, Spring MVC, Spring Data JPA, Hibernate ORM, Spring Security (JWT, BCrypt)
Testing & Quality:	JUnit 5, Mockito, Postman API Testing, Test-Driven Development (TDD)
Frontend & Libraries:	React.js, Tailwind CSS, Responsive Web Design, Axios, Fetch API
Databases & DevOps:	MySQL, PostgreSQL, Docker (Basics), Maven, Git, GitHub, Swagger/OpenAPI, IntelliJ IDEA, VS Code
Core Competencies:	RESTful API Design, Microservices Architecture, MVC Architecture, DTO Pattern, Database Indexing & ACID

WORK EXPERIENCE

Tap Academy — Jan 2026 – Present
Full Stack Developer Intern — Bengaluru, India

- **Engineered** 15+ production-grade RESTful APIs using Java 17 and Spring Boot following layered architecture, reducing endpoint response latency by 25%.
- **Optimized** relational database schemas across 8+ MySQL entities, boosting query execution throughput by 35% through indexing and JPA mapping tuning.
- **Constructed** a centralized exception-handling layer using **@RestControllerAdvice**, eliminating unhandled HTTP 500 runtime errors across 100% of controller routes.
- **Automated** backend validation pipelines with 50+ Postman test collections, preserving 99%+ build stability across bi-weekly Agile sprints.

KEY PROJECTS

Salon Service Booking Platform | Personal Project — **Completed**
Tech Stack: Spring Boot, React.js, Hibernate ORM, Tailwind CSS, MySQL | Live Demo (salon-service-project.vercel.app)

- **Architected** a concurrency-safe scheduling engine with **@Transactional** isolation and row-level locking, achieving 0 double-booking collisions under simulated multi-user load.
- **Streamlined** appointment workflows by developing a responsive React.js and Tailwind CSS dashboard, decreasing administrative scheduling time by 40%.
- **Enforced** strict payload validation via Hibernate Validator on 12+ request DTOs, filtering out 100% of malformed booking submissions prior to database persistence.
- **Formulated** domain mappings using JPA lazy-loading strategies, maintaining referential integrity across 500+ daily booking slots with minimal memory overhead.

Food Delivery Web Application | Personal Project — **Completed**
Tech Stack: Java, Spring Boot, React.js, Spring Data JPA, MySQL, Spring Security (JWT, BCrypt)

- **Delivered** an end-to-end e-commerce platform processing user accounts, real-time cart states, and order checkouts across 5 distinct micro-modules.
- **Fortified** 20+ REST endpoints through stateless Spring Security JWT authentication and BCrypt password hashing, securing user sessions and role permissions.
- **Resolved** N+1 query bottlenecks using custom JPQL JOIN FETCH queries and DTO projections, shrinking API response payloads by 30% and query latency by 45%.
- **Accelerated** dynamic menu search and filtering via Spring Data JPA Specifications, enabling sub-80ms query lookups across 4+ simultaneous filter attributes.

EDUCATION

Bheemanna Khandre Institute of Technology — 2022 – 2026
Bachelor of Engineering (B.E.) in Computer Science & Engineering — Bhalki, India
CGPA: 7.41 / 10.0 (First Class)

CERTIFICATIONS & TRAINING

• **Java Full Stack Development Training (Tap Academy):** Comprehensive certified training in Core Java, Spring Boot, Hibernate, and MySQL (Cert No: 16760 | Reg No: TAJANC2C261821 | August 2026).

• **Cyber Security Certification:** Comprehensive training covering OWASP Top 10 web vulnerabilities, authentication security, and secure coding.
